

2.32 NOTIFICATION OF SICKNESS AT SCHOOL

If a child becomes ill at Lindfield Montessori Preschool, a parent or guardian will be notified and asked to collect them as soon as possible. If a child is diagnosed with an Infectious Disease, they will be isolated immediately to protect other children. Similar exclusions apply to staff members.

It is essential that parents have good, reliable alternative arrangements for their children should they become sick. Two local contacts are requested in the health section of the Confidential Information record and will be contacted if a parent is unable to collect a sick child.

If a child develops a temperature at the School, staff will take appropriate steps to cool the child and administer Paracetamol providing the consent has been signed and it is absolutely necessary.
